Unless stated otherwise and unless the context requires otherwise, the financial data used in this Tranche I Prospectus is on a consolidated basis.

There are significant differences between Ind AS, Indian GAAP, US GAAP and IFRS. We urge you to consult your own advisors regarding such differences and their impact on our financial data. Accordingly, the degree to which the Reformatted Financial Information in this Tranche I Prospectus will provide meaningful information is entirely dependent on the reader’s level of familiarity with Ind AS. Any reliance by persons not familiar with Indian accounting practices on the financial disclosures presented in the Shelf Prospectus and this Tranche I Prospectus should accordingly be limited.

Non-GAAP Financial Measures

Net worth, Financial Assets (excluding cash and cash equivalents) and Investments, Non-Financial Assets (excluding property, plant and equipment and other intangible assets), Financial Liabilities (excluding debt securities, borrowing (other than debt securities and subordinated liabilities) and Total Debt/Total Equity (together, “**Non-GAAP Financial Measures**”), presented in the Shelf Prospectus and this Tranche I Prospectus are supplemental measure of our performance and liquidity that is not required by, or presented in accordance with, Ind AS, Indian GAAP, IFRS or US GAAP. Further, these Non-GAAP Measures are not a measurement of our financial performance or liquidity under Ind AS, Indian GAAP, IFRS or US GAAP and should not be considered in isolation or construed as an alternative to cash flows, profit/ (loss) for the years/ period or any other measure of financial performance or as an indicator of our operating performance, liquidity, profitability or cash flows generated by operating, investing or financing activities

derived in accordance with Ind AS, Indian GAAP, IFRS or US GAAP. In addition, these Non-GAAP measures are not standardised terms, hence a direct comparison of these Non-GAAP Measures between companies may not be possible. Other companies in financial services industry may calculate these Non-GAAP Measures differently from us, limiting its usefulness as a comparative measure. Although such Non-GAAP Measures are not a measure of performance calculated in accordance with applicable accounting standards, our Company’s management believes that they are useful to an investor in evaluating us as they are widely used measures to evaluate a company’s operating performance.

Currency and Unit of Presentation

In this Tranche I Prospectus, references to “₹”, “Indian Rupees”, “INR”, “Rs.” and “Rupees” are to the legal currency of India, references to “US\$”, “USD”, and “U.S. Dollars” are to the legal currency of the United States of America, as amended from time to time. Except as stated expressly, for the purposes of this Tranche I Prospectus, data will be given in ₹ in crore.

Certain figures contained in this Tranche I Prospectus, including financial information, have been subject to rounding adjustments. Unless set out otherwise, all figures in decimals, including percentage figures, have been rounded off to two decimal points. In certain instances, (i) the sum or percentage change of such numbers may not conform exactly to the total figure given; and (ii) the sum of the numbers in a column or row in certain tables may not conform exactly to the total figure given for that column or row. Further, any figures sourced from third party industry sources may be rounded off to other than two decimal points to conform to their respective sources.

Industry and Market Data

Any industry and market data used in the Shelf Prospectus and this Tranche I Prospectus consists of estimates based on data reports compiled by Government bodies, professional organisations and analysts, data from other external sources including CRISIL, available in the public domain and knowledge of the markets in which we compete. These publications generally state that the information contained therein has been obtained from publicly available documents from various sources believed to be reliable, but it has not been independently verified by us, its accuracy and completeness is not guaranteed, and its reliability cannot be assured. Although we believe that the industry and market data used in the Shelf Prospectus and this Tranche I Prospectus is reliable, such data has not been independently verified by us. The data used in these sources may have been reclassified by us for purposes of presentation. Data from these sources may also not be comparable. The extent to which the industry and market data presented in the Shelf Prospectus and this Tranche I Prospectus is meaningful depends on the reader’s familiarity with and understanding of the methodologies used in compiling such data. There are no standard data gathering methodologies in the industry in which we conduct our business and methodologies, and assumptions may vary widely among different market and industry sources.

Given that we have compiled, extracted and reproduced data from external sources, including third parties, trade, industry or general publications, we accept responsibility for accurately reproducing such data. However, neither we nor the Lead Managers have independently verified this data and neither we nor the Lead Managers make any representation regarding the accuracy of such data. Similarly, while we believe our internal estimates to be reasonable, such estimates have not been verified by any independent sources and neither we nor the Lead Managers can assure potential investors as to their accuracy.

STATEMENT OF POSSIBLE TAX BENEFITS UNDER THE INCOME TAX ACT, 1961 (“IT ACT”) AVAILABLE TO THE DEBENTURE HOLDERS UNDER THE APPLICABLE INCOME-TAX LAWS IN INDIA

The information provided below sets out the possible tax benefits available to the Debenture Holders of the Company under the Act presently in force in India. The Annexure is based on the provisions of the IT Act, as on date, taking into account the amendments made by the Finance Act, 2023 (FA 2023).

This Annexure intends to provide general information on the applicable provisions of the IT Act. It is not exhaustive or comprehensive and is not intended to be a substitute for professional advice. Several of these benefits are dependent on the Company or its Debenture Holders fulfilling the conditions prescribed under the relevant provisions of the Income-tax Act, 1961. In view of the individual nature of the tax consequences and the changing tax laws, each investor is advised to consult his or her own tax consultant with respect to the specific tax implications arising out of their participation in the Issue, particularly in view of the fact that certain recently enacted legislation may not have a direct legal precedent or may have a different interpretation on the benefits, which an investor can avail. Neither are we suggesting nor advising the investor to invest money based on this Statement.

You should consult your own tax advisors concerning the Indian tax implications and consequences of purchasing, owning and disposing of the Debentures in your particular situation.

Taxability under the IT Act

1. Taxability under various heads of Income

The returns received by the investors from NCDS in the form of interest and the gains on the sale/ transfer of the NCD, may be characterized under the following broad heads of income for the purposes of taxation under the IT Act:

- Profits and gains from business;
- Income from capital gains; and
- Income from other sources.

The returns from the investment in the form of interest would generally be subject to tax under the head “income from other sources”. Under certain circumstances, depending upon the facts and circumstances of the taxpayer, the interest income may be subject to tax under the head “Profits and gains from business”.

The gains from the sale of the instrument or security may be characterized either as “Profits and gains from business” or as “Capital Gains”.

This is discussed in the following paragraph.

“Profit and gains from business” versus “Capital gains”

1. Taxability under various heads of Income (continued)

Gains from the transfer of securities/instruments of the investee companies may be characterized as “Capital Gains” or as “Profits and gains from business” in the hands of an investor, depending upon whether the investments in the NCD are held as ‘investments’ or as ‘stock in trade’. This can vary based on the facts of each investor’s case (taking into account factors such as the magnitude of purchases and sales, ratio between purchases and sales, the period of holding, whether the intention to earn a profit from sale or to earn interest etc.).

The investors may obtain specific advice from their tax advisors regarding the tax treatment of their investments.

2. Taxation of interest, profits from business and capital gains

Taxation of Interest

Income by way of interest received on debentures, bonds, and other debt instruments held as investments will be charged to tax as under the head “Income from Other Sources” at the rates applicable to the investor after deduction of expenses, if any, allowable under section 57 of the IT Act. These are essentially expenses (not being in the nature of capital expenditure) laid out or expended wholly and exclusively for the purpose of earning the interest income.

In case of debentures, bonds or other debt instruments held as stock in trade and sold before their maturity, the interest accrued thereon till the date of sale and included in the sale price, may also be charged to tax as “business income” (treatment separately discussed below).

Further, in case of certain specific fixed income securities and certain debt instruments, purchased and held as investments and transferred prior to maturity, the gain from the transfer may also possibly be characterized as “capital gains” (treatment separately discussed below).

The investors may obtain specific advice from their tax advisors regarding the tax treatment of their investments.

Taxation of Profits and gains from business

As discussed above, depending on the particular facts of each case, the investments may, in certain cases, be regarded to be in the nature of stock in trade and, hence, the gains from the transfer/ sale of such investments would be considered to be in the nature of “Profits and gains from business”.

In such a scenario, the gains from the business of investing in the NCD may be chargeable to tax on a ‘net’ basis (that is, net of allowable deductions for expenses/allowances under Chapter IV –Part D of the IT Act).The “Profits and gains from business” so computed, as reduced on account of set-off of losses in accordance with Chapter VI of the IT Act and unabsorbed allowances, if any, would go to form part of the gross total income of the investor.

The gross total income would be reduced by deductions, if any, available under Chapter VI-A of the IT Act and the resultant total income would be subject to tax at the tax rates as applicable to the investor (Refer Note 1 and Note 2).

Based on section 145 of the IT Act, the timing of charging any income to tax would depend on the method of accounting followed by the taxpayer consistently (i.e., cash or mercantile).

2. Taxation of interest, profits from business and capital gains (continued)

Investors should obtain specific advice from their tax advisors regarding the manner of computing business income, the deductions available therefrom and the tax to be paid thereon.

Taxation of Capital Gains

As discussed above, based on the particular facts of each case, the investments may, in certain cases, be regarded to be in the nature of capital assets and hence the gains from the transfer/ sale of such investments would be considered to be in the nature of “capital gains”.

As per section 2(14) of the IT Act, the term ‘capital asset’ had been defined to inter alia mean any securities held by a foreign institutional investor which has invested in such securities in accordance with the regulations made under Securities and Exchange Board of India Act, 1992.

Period of holding –long-term &short-term capital assets.

A security (other than a unit) listed on a recognized stock exchange in India or zero-coupon bond (as defined) held for a period of more than 12 months is considered long-term capital asset.

In case of share of an unlisted company and immovable property, it will be considered as a long-term capital asset where it is held for a period of more than 24 months. Any assets (other than as described above), are considered long-term capital assets where they are held for a period of more than 36 months.

The above assets, where held for a period of not more than 12 months/ 24 months/ 36 months, as the case may be, will be treated as short-term capital assets.

The gains arising from the transfer of long-term capital assets are termed as long-term capital gains.

The gains arising from the transfer of short-term capital assets are termed as short-term capital gains.

Computation of capital gains

Capital gains are computed after reducing from the consideration received from the transfer of the capital asset, the cost of acquisition of such asset and the expenses incurred wholly and exclusively in connection with the transfer.

Nature of transactions and resultant capital gain treatment

The capital gains tax treatment of transactions is given in Note 4.

The following transactions would attract the “regular” capital gains tax provisions:

- Transactions of sale of debentures, bonds, listed or otherwise; and
- Transactions in structured debentures.

Set off of capital losses.

Long-term capital loss of a year can be set off only against long-term capital gains arising in that year and cannot be set off against short-term capital gains arising in that year. On the other hand, short-term capital loss in a year can be set off against both short-term and long-term capital gains of the same year.

2. Taxation of interest, profits from business and capital gains (continued)

Unabsorbed short-term and long-term capital loss of prior years can be separately carried forward for not more than eight assessment years (“AY”) immediately succeeding the assessment year for which the first loss was computed. Unabsorbed short-term capital loss shall be eligible for set off against short-term capital gains as well as long-term capital gains. However, unabsorbed long-term capital loss shall be eligible to be set off only against long-term capital gains.

Further, the option to be assessed to tax in accordance with the provisions of section 115BAC(6) of the IT Act once exercised by an individual or HUF or other specified persons carrying on business or profession for any previous year can be withdrawn only once for a previous year other than the year in which it was exercised and thereafter, such individual or HUF or other specified persons shall never be eligible to exercise the option to be assessed in accordance with the provisions of section 115BAC(1A) of the Act except where such individual or HUF or other specified persons ceases to have any income from business or profession, in which case, the option to be assessed to tax as per the provisions of section 115BAC(1A) of the IT Act shall be available.

Alternate Minimum Tax (“AMT”)

The IT Act provides for the levy of AMT to tax investors (other than companies) at the rate of 18.5 per cent (plus applicable surcharge and health and education cess) on the adjusted total income. In a situation where the income-tax computed as per the normal provisions of the IT Act is less than the AMT on “adjusted total income”, the investor shall be liable to pay tax as per AMT. “Adjusted total income” for this purpose is the total income before giving effect to the deductions claimed under section C of chapter VI-A (other than section 80P) and deduction claimed, if any, under section 10AA and deduction claimed, if any, under section 35AD as reduced by the amount of depreciation allowable in accordance with the provisions of section 32 as if no deduction under section 35AD was allowed in respect of the assets on which the deduction under that section is claimed. AMT will not apply to an Individual, HUF, AOP, BOI or an Artificial Juridical Person if the adjusted total income of such person does not exceed INR 20 lakhs. As per sub-section (5) to section 115JC of the IT Act, inserted by FA 2020, the provisions of AMT shall not be applicable in case of, inter alia, an individual or HUF who has exercised the option to be taxed as per the provisions of section 115BAC of the IT Act. Further, the credit of AMT can be further carried forward to fifteen subsequent years and set off in the year(s) where regular income tax exceeds the AMT. Vide Finance Act, 2022, the rate of AMT, from AY 2023-24, in case of Co-operative society has been reduced to 15% from the existing rate of 18.5%. Further, in case of unit located in an International Financial Services Centre and who derives its income solely in convertible foreign exchange, the rate of AMT has been reduced to 9%.

The provisions of AMT also provide that the Foreign Tax Credit (FTC) claimed against AMT liability which exceeds the FTC that would have been allowable while computing income under normal provisions, would be ignored while computing tax credit under AMT.

Certain amendments have been made vide Finance Act, 2023 in section 115JC and 115JD which are applicable from AY 2024-25. Pursuant to these amendments, the provisions of section 115JC and JD are not applicable to the persons who have exercised option referred to in sub-section (5) of section 115BAC or Sub-section (5) of section 115BAD or Sub-section (5) of section 115BAE or where income tax in respect of such person is computed under sub-section (1A) of section 115BAC.

Minimum Alternative Tax (“MAT”)

The IT Act provides that where the tax liability of a company (under the regular provisions of the IT Act) is less than 15 per cent of its 'book profit', then the book profit is deemed to be its total income and tax at the rate of 15 per cent (plus applicable surcharge and health and education cess –Refer Note 2) is the MAT payable by the company.

Tax credit is allowed to be carried forward for fifteen years immediately succeeding the assessment year in which tax credit becomes allowable. The tax credit can be set-off in a year when the tax is payable on the total income is in accordance with the regular provisions of the IT Act and not under MAT.

2. Taxation of interest, profits from business and capital gains (continued)

Minimum Alternative Tax (“MAT”) (continued)

The CBDT vide its Circular no. 29 of 2019 dated 2 October 2019 has clarified that MAT credit is not available to a domestic company exercising option under section 115BAA of the IT Act. The circular further clarifies that there is no time limit within which the option under section 115BAA of the IT Act can be exercised and accordingly, a domestic company having accumulated MAT credit may, if it so desires, exercise the option of section 115BAA of the IT Act at a future date, after utilizing the MAT credit against tax payable as per the regime existing prior to the Taxation Laws (Amendment) Act, 2019.

As per the provisions of section 115JB of the IT Act, the amount of income accruing or arising to a foreign company from capital gains arising on transactions in securities or interest, royalty, or fees for technical services chargeable to tax at the rates specified in Chapter XII of the IT Act, shall be excluded from the purview of MAT, if such income is credited to the Profit and Loss Account and the tax payable on such income under the normal provisions is less than the MAT rate of 15 per cent. Consequently, corresponding expenses shall also be excluded while computing MAT.

Further, Explanation 4 to section 115JB of the IT Act clarifies that provisions of MAT will not apply to a foreign company if:

- (a) It is a resident of a country with which India has a DTAA and the company does not have a permanent establishment in India in accordance with the provisions of such DTAA; or
- (b) it is a resident of a country with which India does not have a DTAA and the foreign company is not required to register under any law applicable to companies.

Further, it is provided that the FTC claimed against MAT liability which exceeds the FTC that would have been allowable while computing income under normal provisions, would be ignored while computing tax credit under MAT.

Also, sub-section 5A to section 115JB, provides that the provisions of section 115JB shall not apply to a person who has exercised the option referred under section 115BAA or section 115BAB of the IT Act.

Taxability of non-resident investors under the tax treaty

In case of non-resident investor who is a resident of a country with which India has signed a Double Taxation Avoidance Agreement (“DTAA” or “tax treaty”) (which is in force) income-tax is payable at the rates provided in the IT Act, as discussed below, or the rates provided in such tax treaty, if any, whichever is more beneficial to such non-resident investor.

For non-residents claiming such tax treaty benefits, the IT Act mandates the obtaining of a Tax Residency Certificate (“TRC”) from the home country tax authority.

2. Taxation of interest, profits from business and capital gains (continued)

Taxability of non-resident investors under the tax treaty (continued)

Section 90(5) of the IT Act provides that an assessee to whom a DTAA applies shall provide such other documents and information, as may be prescribed. Further, a notification substituting Rule 21AB of the Income-tax Rules, 1962 (“Rules”) has been issued prescribing the format of information to be provided under section 90(5) of the IT Act, i.e., in Form No 10F. In the context of taxation of capital gains, the definitions of “capital asset” and “transfer” are widened with retro-effect from 1 April 1961 specifically with a view to tax, in the hands of non-residents, gains from direct or indirect transfer of assets situated in India.

General Anti Avoidance Rules (“GAAR”)

The General Anti Avoidance Rules (“GAAR”) were introduced in the IT Act by the Finance Act, 2012. The Finance Act, 2015 made the provisions of GAAR applicable prospectively from 1 April 2017. Further, income accruing, arising, deemed to accrue or arise or received or deemed to be received by any person from transfer of investments made up to 31 March 2017 would be protected from the applicability of GAAR.

Section 206AA of the IT Act provides that the provisions shall not apply to non-residents in respect of payment of interest on long-term bonds as referred to in section 194LC and any other payment subject to such conditions as may be prescribed.

Further, the CBDT, vide its notification dated 24 June 2016, has clarified that the provisions of section 206AA shall not apply to non-residents in respect of payments in the nature of interest, royalty, fees for technical services and payment on transfer of capital assets provided the non-residents provide the following information to the payer of such income:

- twice the rate or rates in force; or
- the rate of 5%

In cases, where both section 206AA and section 206AB are applicable, taxes shall be deducted at higher of the rate prescribed under both the sections.

- The aggregate amount of TDS/TCS exceeds INR 50,000 or more in the said previous years

However, the provisions of this section will not apply on a non-resident who does not have a permanent establishment in India.

Note 7: Other Provisions

No income tax is deductible at source from income by way of capital gains arising to a resident shareholder under the present provisions of the Act. However, as per the provisions of Section 195 of the Act, any income by way of capital gains payable to non-residents may be subject to withholding of tax at the rate under the domestic tax laws or under the applicable Double Taxation Avoidance Agreement (DTAA), whichever is beneficial to the non-resident, unless a lower withholding tax certificate is obtained from the tax authorities.

MATERIAL DEVELOPMENTS

Except as disclosed below, no other material developments have taken place in our Company since March 31, 2023, and there have arisen no circumstances that materially or adversely affect the operations, or financial condition or profitability or credit quality of the Company or the value of its assets or its ability to pay its liabilities within the next 12 months except as stated in the section “*Financial Information*” on page 208 of the Shelf Prospectus.

On February 17, 2021, the RBI issued the Master Directions – Non Banking Company – Housing Finance Company (Reserve Bank) Directions, 2021 (“**Master Direction**”), which requires, among others, housing finance companies to have a minimum percentage of total assets allocated towards housing finance within certain specified timelines. Such HFCs were required to submit to the RBI a board approved plan, including a roadmap, to fulfil the criteria regarding allocation of assets in the Master Directions and the timeline for transition. HFCs unable to fulfil the criteria set out in the Master Directions will be treated as ‘Non-Banking Finance Company – Investment and Credit Company’ (“**NBFC ICC**”) and will be required to approach the RBI for conversion of their certificate of registration from HFC to NBFC-ICC.

As an outcome of our asset light business model which has gained significant traction in the last two years, we only retain a small portion of the loans disbursed by us on our balance sheet. Consequently, in our present structure, we no longer can be classified under HFCs as per the business criteria laid out in paragraph 5.3 of the Master Directions. As a result of our long term commitment to the asset light business model, we have confirmed to the RBI that it we are working on a plan for reorganization of the company’s structure, and have submitted to the RBI a board approved plan to this effect. Subject the requisite regulatory and statutory approvals, the reorganization plan would entail, inter alia, consolidation of the companies various entities into a larger Non-Banking Finance Company – Investment and Credit Company (NBFC ICC), and changing of the company’s name. The RBI has given us time until September 30, 2023, to implement the board approved plan for conversion of the company into an NBFC ICC in accordance with the Master Directions. In the interim, we have been advised by the NHB to continue to comply with the provisions of the Master Direction and other circulars issued by RBI as applicable to HFCs and the supervisory circulars issued by the NHB. For further details, please see “*Regulations and Policies*” on page 172 of the Shelf Prospectus.

Detailed Rationale

CRISIL Ratings has reaffirmed its 'CRISIL AA/Stable/CRISIL A1+' ratings on the bank facilities and debt instruments and bank facility of Indiabulls Housing Finance Ltd (IBHFL). CRISIL Ratings has also withdrawn its rating on Rs 2300 crore NCDs on redemption, in-line with its withdrawal policy.

The ratings continue to reflect CRISIL Ratings' expectation that IBHFL will maintain its strong capitalisation, with healthy cover for asset-side risks, comfortable asset quality in the retail segments and sizeable presence in retail mortgage finance. The ratings also factor in the company's susceptibility to asset quality risks arising from the commercial real estate portfolio and the need to demonstrate the ability to successfully transition to its planned new funding-light business model.

Analytical Approach

CRISIL Ratings has combined the business and financial risk profiles of IBHFL and its subsidiaries. This is because of substantial operational and management integration, common promoters and shared brand.

Please refer Annexure - List of entities consolidated, which captures the list of entities considered and their analytical treatment of consolidation

Key Rating Drivers & Detailed Description

Strengths:

Strong capitalisation with healthy cover for asset-side risks

Capitalisation is marked by sizeable network of Rs 16,727 crore as on June 30, 2022, supported by healthy internal accruals. Accruals of Rs 1,988 crore from sale of bulk of its investment in OakNorth Bank in fiscal 2021 also contributed to the strengthening of capital position. Network coverage for net non-performing assets (NPAs) was also comfortable at around 13.4 times as on June 30, 2022. Consolidated Tier-1 capital adequacy ratio (CAR) was healthy at 27.5% as on June 30, 2022, as was total CAR at 34%. Consolidated on-book gearing was comfortable at 2.8 times as on June 30, 2022 (3.2 times as on March 31, 2022). Given the strong liquidity that IBHFL maintains on a steady-state basis, net gearing was 2.5 times as on March 31, 2022 (2.6 times as on March 31, 2022).

The company has demonstrated strong ability to raise capital including the Rs 683 crore equity raised through qualified institutional placement [QIP] in fiscal 2021 and Rs 293 crore through stake sale in Oaknorth Bank in fiscal 2022. Strong capitalisation should continue to support the company's overall financial risk profile over the medium term.

Comfortable asset quality in retail segments

IBHFL reported overall gross NPAs of 3.0% as on June 30, 2022 compared to 3.2% as on March 31, 2022 (2.7% as on March 31, 2021). The uptick in fiscal 2022 has been due to higher delinquencies in the housing loan and loan against property (LAP) segments on account of the second wave of Covid-19 coupled with de-growth in AUM. Nevertheless, asset quality has improved in Q1FY23 and remains comfortable in these segments (together forming 88% of AUM as on June 30, 2022) with gross NPAs at 1.4% and 2.5%, respectively. The extent of one-time debt restructuring (OTR) under the Covid-19 relief scheme has been also limited; book restructured under OTR 1.0 and 2.0 was Rs 155 crore as on March 31, 2022.

With a few high-ticket slippages in commercial credit book over past few years and continued traction in refinancing of this portfolio resulting in a de-growth, gross NPAs in this segment remain elevated at 12.2% as on June 30, 2022.

Nevertheless, the company's risk-mitigating measures are prudent, in the form of conservative loan-to-value ratios (averaging around 44%) in the LAP segment, and emphasis on collateral with sufficient cover in the commercial real estate segment. However, any sharp increase in NPAs, mainly in the commercial credit portfolio, and its impact on profitability will remain key rating sensitivity factors for IBHFL.

Sizeable presence in the retail mortgage finance segment

IBHFL's total AUM stood at Rs 73,047 crore as on June 30, 2022. The share of housing loans within the overall AUM continues to increase and was at 71% as on June 30, 2022 as compared to 50% as on March 31, 2015. The company's LAP portfolio accounted for 17% of the overall AUM as on June 30, 2022, with remaining 12% being towards commercial credit. The proportion of housing loans and LAP is expected to increase further from the current levels over the medium term.

Given the challenging operating environment, overall AUM declined 8% year-on-year as on June 30, 2022, on account of lower disbursements as well as higher prepayments/sell-down in commercial credit book. This is also because of the current business transition with more focus on a granular portfolio. However, AUM has shown an improvement on Q-o-Q basis by 1.2% in Q1FY23. The overall disbursements during fiscal 2022 were Rs 11,091 crore, impacted due to pandemic induced localized lockdowns but pick up seen in second half of the year; disbursements during first quarter of fiscal 2023 were Rs 3,515 crore. IBHFL's overall AUM growth is expected to be subdued over the next couple of quarters as it recalibrates its business model, but is expected to revive subsequently. While the share of own book in the total AUM is expected to come down, its overall presence in the retail mortgage finance market is expected to remain sizeable.

Weaknesses:

Susceptibility to asset quality risks arising from the commercial real estate portfolio

Asset-quality risks arising from a sizeable large-ticket commercial credit portfolio of Rs 9,065 crore as on June 30, 2022 persist, and could impact the company's portfolio performance. Given the chunkiness of loans (average ticket size of Rs 150 crore), even a few large accounts experiencing stress could impact asset quality.

Under the Covid-19 restructuring scheme announced by the RBI dated August 6, 2020 and May 5, 2021, the company restructured a very small portion of its AUM amounting to 0.26% as on March 31, 2022. Asset quality in commercial credit as well as LAP remain vulnerable given the macro environment and will be monitored closely.

The share of commercial credit in overall AUM has decreased over the last couple of years and was 12% as on June 30, 2021. The management has launched an alternative investment fund (AIF) platform for this segment wherein Rs 200 crore has been disbursed to a leading developer. Further, the process of filing for regulatory approvals is underway for launching two more AIFs (expected to be launched in the current fiscal).

However, any weakening in asset quality, specifically in the commercial real estate book and its impact on profitability, remains a monitorable.

Successful transition to new business model to be established; though IBHFL has demonstrated strong execution capabilities in the past

The management has recalibrated its business model, under which IBHFL is gradually moving towards a less risky and asset-light framework, wherein disbursements will primarily be in the housing loans and LAP segments (with a potential 60:40 split), with a low proportion of incremental disbursements in developer finance portfolio. Further, on a steady state basis, of the overall disbursements, a significant proportion will be either co-originated or sold-down to banks.

IBHFL has started working towards this new model and has entered into a co-origination agreement with six banks and one HFC. The disbursements amounting to Rs 4,067 crore were done in fiscal 2022 and Q1FY23 under these agreements. However, the management's ability to increase the disbursement pace, establish tie-ups with multiple banks and successfully scale-up this model, while maintaining healthy profitability and asset quality is to be witnessed, though the company has demonstrated good execution capabilities in scaling up businesses in the past.

While earnings are expected to decline from levels seen in recent years, it will be supported by income from co-origination, off-balance sheet portfolio, and from spread on sold-down loans. Further, this will be commensurate with the more granular,

lower-risk portfolio, which will be the focus as part of the new business model. In recent times, earnings were impacted on account of decline in AUM, however improved in fiscal 2022 due to lower credit cost. Overall, IBHFL's return on assets (RoA) improved to 1.3% during fiscal 2022 and 1.5% in quarter ended June 30, 2022, from 1.2% for fiscal 2021.

Liquidity: Strong

CRISIL Ratings' analysis of IBHFL's asset liability maturity (ALM) profile as on March 31, 2022, shows a cumulative positive gap (cumulative inflows over cumulative outflows) in the up to 1-year bucket. The company has reduced its reliance on commercial paper funding and elongated its liability duration. It had nil commercial paper borrowings as on June 30, 2022, against 16% as of September 2018.

Liquidity remains strong as IBHFL maintains sufficient amount of liquidity at any point in time, to cover 90-100% of debt repayments for the next 12 months. As on June 30, 2022, against total debt of around Rs 10,082 crore maturing till June 30, 2023, IBHFL had total liquidity of around Rs 9,180 crore in the form of investments in mutual funds, certificates of deposits, bank balances, fixed deposits and undrawn available sanctions.

The fund raising is stabilising, with the company raising around Rs 26,776 crore in fiscal 2022 and Rs 8,000 crore in Q1FY23. While a part of the bank funding has been roll-over of working capital or cash credit lines, the pace of long-term funding from banks has improved in recent quarters. In addition, the company has another Rs 7,465 crore of sanctions in the pipeline. Continued access to funding will be a key monitorable.

Outlook: Stable

CRISIL Ratings believes IBHFL will maintain strong capitalisation, comfortable asset quality in the retail segments and sizeable presence in retail mortgage finance.

Rating Sensitivity Factors

Upward Factors

Downward Factors

- Deterioration in asset quality with gross NPAs increasing to more than 3.5% over an extended period, thereby also impacting profitability
- Potential weakening of earnings profile with changes in the business model with RoA of less than 1%
- Reduction in liquidity levels to cover debt repayments
- Inability to raise fresh capital to sustain comfortable buffers
- Funding access challenges with limited fund-raising

About CRISIL Ratings Limited (A subsidiary of CRISIL Limited)

CRISIL Ratings pioneered the concept of credit rating in India in 1987. With a tradition of independence, analytical rigour and innovation, we set the standards in the credit rating business. We rate the entire range of debt instruments, such as bank loans, certificates of deposit, commercial paper, non-convertible/convertible/partially convertible bonds and debentures, perpetual bonds, bank hybrid capital instruments, asset-backed and mortgage-backed securities, partial guarantees and other structured debt instruments. We have rated over 33,000 large and mid-scale corporates and financial institutions. We have also instituted several innovations in India in the rating business, including ratings for municipal bonds, partially guaranteed instruments and infrastructure investment trusts (InvITs).

CRISIL Ratings Limited ('CRISIL Ratings') is a wholly-owned subsidiary of CRISIL Limited ('CRISIL'). CRISIL Ratings Limited is registered in India as a credit rating agency with the Securities and Exchange Board of India ("SEBI").

Rationale

To arrive at the rating, consolidated financials of Indiabulls Housing Finance Limited (IBHFL) have been considered. ICRA has taken a consolidated view of the credit profiles of IBHFL and its wholly-owned subsidiary – Indiabulls Commercial Credit Limited (ICCL; together referred to as Indiabulls or the company), given the operational synergies, shared name and management oversight.

The rating continues to factor in Indiabulls' established franchise in the domestic mortgage finance industry and its adequate capitalisation and liquidity profile. Notwithstanding the decline in the assets under management (AUM) in recent years, Indiabulls continues to have a sizeable retail portfolio with housing loans (HL) and loan against property (LAP) accounting for 88% of the AUM as on December 31, 2022. The capitalisation is adequate with a net worth of Rs. 17,269 crore, gross gearing of 3 times and net gearing of 2.3 times as of December 31, 2022. The capitalisation profile has been supported by the track record of capital raising, besides the decline in borrowings following the portfolio degrowth in recent years.

While reaffirming the rating, ICRA has taken cognizance of the company's profitability trajectory, which has moderated in recent years due to the elevated credit provisions and the declining AUM amidst its realignment to an asset-light strategy. The net worth accretion was further constrained by the additional credit provisions created directly through reserves. ICRA also takes cognizance of the recent institutionalisation/de-promoterisation exercise, whereby the company has endeavoured to strengthen the governance structure and has onboarded industry professionals with diverse experience. Further, an exercise for the simplification of the corporate structure would be undertaken in the near term along with a rebranding exercise by the marketing team to reflect the institutionalised character as well as the focus towards retail mortgage lending.

The rating is, however, constrained by the weak asset quality of the commercial credit (real estate developer loan) segment¹, an asset class that faced increased vulnerability in the past. Nonetheless, there has been a sizeable reduction in this segment during FY2021-FY2022 while the asset quality in the retail segment remains adequate. The blended headline asset quality metrics have remained range-bound and the solvency, characterised by net non-performing assets (NNPA)/net worth, stood at 8.8% as of December 31, 2022. The stage 2 assets improved to 8% of the loan book as of December 31, 2022 from 31% as of March 31, 2022. The rating is also constrained by the moderate borrowing profile with bank funding, including co-lending/sell-downs, being a key source of incremental funds in recent quarters. Fresh disbursements remain modest and the cost of funds remains marginally elevated. Further, healthy collections from the retail portfolio have helped the company maintain adequate liquidity and manage its asset-liability profile.

¹ Segmental GNPA of 12.8% as of December 31, 2022 compared to 13.3% as of March 31, 2022

The Stable outlook reflects ICRA's expectation that Indiabulls will continue to draw on its established presence in the domestic mortgage finance industry and its adequate capitalisation and liquidity. Nevertheless, the company's ability to achieve meaningful scale-up under the new business model, while maintaining healthy asset quality and profitability, would be a credit-sensitive factor.

ICRA has reaffirmed and withdrawn the rating assigned to IBHFL's Rs. 1,390-crore non-convertible debenture (NCD) programme as no amount is outstanding against the rated instrument. This is in line with ICRA's policy on the withdrawal of credit ratings.

Key rating drivers and their description

Credit strengths

Established track record in domestic mortgage finance industry – Indiabulls has a long track record in the housing finance business and an established franchise with AUM of Rs. 69,816 crore as on December 31, 2022. While the AUM is significantly lower than the peak AUM of Rs. 1,28,908 crore as on September 30, 2018, it remains one of the largest housing finance companies (HFCs) in the country. It also has a sizeable share of retail loans, primarily HLs, which accounted for 71% of the AUM as of December 31, 2022, followed by LAP (17%). The share of HLs has increased gradually over the years (71% as of March 31, 2022 from 56% of AUM as of March 31, 2017) as the company is incrementally focused on scaling up its retail segment. The AUM degrowth was also due to delays in tech integration with partner banks, which hampered the momentum in co-lending and sell-downs, and the scale-up remains slower than expected. The company disbursed Rs. 6,261 crore in 9M FY2023 via co-lending and sell-downs compared to Rs. 2,962 crore in FY2022. Meaningful scale-up of the AUM would remain critical to improve the financial profile and profitability metrics.

The legacy commercial credit AUM (which includes lease rental discounting (LRD) and construction finance) has gradually run down due to collections/prepayments as well as asset monetisation while incremental disbursements are limited. Going forward, wholesale lending would be moved to the alternative investment fund (AIF) platform, to be launched in partnership with certain global real estate focused funds. The on-balance sheet loan book is expected to remain range-bound as the company transitions to an asset-light model, although the AUM is expected to report a marginal growth in FY2024.

Adequate capitalisation – Indiabulls remains adequately capitalised with a consolidated net worth of Rs. 17,269 crore and a capital-to-risk weighted assets ratio (CRAR) of 33.8% (Tier I – 28.6%) as of December 31, 2022. This provides sufficient cushion for near-term growth while maintaining a comfortable cushion over the regulatory capital adequacy requirement (15%). Besides, the capital structure is characterised by total debt/net worth of 3 times as on December 31, 2022 (net gearing – 2.3 times) compared to 3.7 times as of March 31, 2022 (net gearing – 2.6 times), while solvency (NNPA/net worth) stood at 8.8% as of December 31, 2023. The capitalisation profile has been supported by the company's track record of raising capital and its limited borrowings due to the decline in balance sheet advances in recent years. ICRA expects the capitalisation to remain adequate in the near term, given the shift to an asset-light business model.

The company raised Rs. 5,290 crore in the form of equity/quasi-equity in FY2021 and FY2022 through a qualified institutional placement (QIP), a foreign currency convertible bond (FCCB) issuance and the sale of its stake in OakNorth Holdings. The capitalisation has remained adequate despite the sizeable write-offs in recent years, as the provisions have been recalibrated following the improvement in the operating environment and the portfolio's performance. Provisions being carried on the balance sheet moderated to 2.3% of the loan book as on December 31, 2022 compared to the highs of 4.5% as of December 31, 2021 and 5.1% as of March 31, 2020.

Credit challenges

Weak asset quality indicators, further exacerbated by declining AUM; however, reported headline asset quality metrics remain range-bound – Indiabulls' asset quality remains susceptible to the risks emanating from its legacy commercial credit portfolio. Given the large ticket size and the high inherent risks associated with these exposures, the commercial credit book remains exposed to concentration risks. The increased challenges for the real estate sector due to the Covid-19 pandemic-related lockdowns heightened the portfolio vulnerability, sharply increasing the segmental NPA to 10.8% as of March 31, 2021 and 13.3% as of March 31, 2022, partly exacerbated by a declining AUM. However, the segmental NPA improved marginally to 12.8% as of December 31, 2022, supported by collections/asset monetisation and write-offs.

The asset quality of the retail portfolio remains adequate with gross NPA (GNPA) of 2.0% as of December 31, 2022 compared to 1.8% as of March 31, 2022. Overall, Indiabulls' headline asset quality metrics remain range-bound with GNPA of 3.3% and net NPA (NNPA) of 2.2% as of December 31, 2022 compared to 3.2% and 1.9%, respectively, as of March 31, 2022. Stage 2 assets improved to 8% of the loan book as of December 31, 2022 from 31% as of March 31, 2022, supported by improved collections. Nevertheless, it is noted that certain security receipts (SRs) form a part of stage 2 though there has been a sharp decline in this quantum in recent quarters. Moreover, while credit costs routed through the profit and loss account have remained range-bound, with credit costs/average managed assets (AMA) of 0.8% in 9M FY2023 compared to 0.4% in FY2022 and 0.8% in FY2021, ICRA has taken note of the provisions created through direct debit to additional reserves as well as through other comprehensive income in recent years. Going forward, the company's ability to maintain healthy asset quality under the new business model will remain imperative.

Moderation in profitability, given the slower-than-expected ramp-up of business under revised strategy and modest borrowing profile – With the company resorting to asset securitisation/sell-down as a source of liquidity since H2 FY2019, its on-balance sheet loan book has been declining from March 2019, thereby impacting its operating leverage and hence the earnings profile from FY2020. The accelerated refinancing of developer loans also contributed to the decline in the loan book and the overall portfolio yield. The loan book continued to decline in FY2021 and H1 FY2022 with the slowdown in disbursements due to the pandemic. While disbursements picked up from H2 FY2022, the scale-up remained slower than expected. This, coupled with the higher cost of funds and cost of negative carry, led to a moderation in the net interest margins (NIMs). Operating expenses also remained elevated due to the expansion of the retail franchise. This, coupled with higher provision expenses (including provisions for the estimated impact of the pandemic on the business; part of it was, however, taken directly against the net worth), further impacted the profitability. Nonetheless, it repriced its loans in recent quarters following a series of rate hikes by the Reserve Bank of India (RBI), which offset the impact on NIMs to a certain extent.

IBHFL reported a profit after tax (PAT) of Rs. 1,178 crore (return on managed assets (RoMA) of 1.1% and return on equity (RoE) of 7.2%) in FY2022 compared to PAT of Rs. 1,202 crore (RoMA of 1.0% and RoE of 7.6%) in FY2021. It reported a PAT of Rs. 867 crore (RoMA of 1.2% and RoE of 6.8%) in 9M FY2023 compared to a PAT of Rs. 871 crore (RoMA of 1.3% and RoE of 7.1%) in 9M FY2022. ICRA expects the near-term profitability to remain subdued, given the slower-than-expected growth as well as the constrained operating leverage. The company's ability to scale up the new business model meaningfully would remain critical from a profitability perspective.

The company's borrowing profile is moderate. As of December 31, 2022, NCDs were the primary funding avenue for the company with a 54% share, followed by bank loans (39%). However, some comfort is drawn from the increasing share of co-lending/sell-downs as a source of funds in recent quarters, though the ramp-up has been slower than initially expected. Fresh disbursements remain limited (raised Rs. 13,035 crore in 9M FY2023 compared to Rs. 18,700 crore in 9M FY2022) and the cost of funds remains elevated, partially on account of the series of rate hikes by the RBI in FY2023. The company's ability to continue to raise funds from diverse sources at competitive rates remains imperative for fuelling near-to-medium-term growth.

Liquidity position: Adequate

Indiabulls' consolidated liquidity profile is characterised by positive asset-liability gaps (based on asset-liability management profile as of December 31, 2022), supported by the sizeable on-balance sheet liquidity and the favourable borrowings tenor compared to the assumed behavioural tenor of the loan book. Notwithstanding the recalibration of the liquidity policy amid the improved operating environment, the on-balance sheet liquidity stood at Rs. 3,970 crore as of December 31, 2022. This, coupled with undrawn bank lines of Rs. 2,922 crore, is adequate to cover the debt repayments of Rs. 4,382 crore falling due till June 2023. Further, the track record of healthy collections from the retail segment supports the liquidity position. ICRA notes that the company endeavours to maintain on-balance sheet liquidity sufficient to cover 50-75%² of the repayments falling due in the ensuing 12 months.

Rating sensitivities

Positive factors – ICRA could revise the outlook to Positive or upgrade the rating on the significant and sustained scale-up of the business performance under the revised asset-light business model coupled with better resource mobilisation with access to well-diversified sources at competitive rates, while maintaining healthy asset quality (GNPA including 1-year write-offs of less than 3%) and improving the earnings profile.

Negative factors – ICRA could revise the outlook to Negative or downgrade the rating if the company fails to meaningfully scale up the planned asset-light business model over the medium term or in case of a material deterioration in its asset quality, affecting the financial profile. Any sustained weakness in resource mobilisation from diversified sources, which would restrict its ability to lend or would lead to a deterioration in its liquidity profile, could also put pressure on the rating.

The company also faces prepayment risk, given the possibility of debt acceleration upon the breach of covenants, including financial covenants, operating covenants and rating linked covenants. Upon failure to meet the covenants, if the company is unable to get waivers from the lenders/investors or the lenders/investors do not provide it with adequate time to arrange for alternative funding to pay off the accelerated loans, the rating would face pressure.
